

TE Air

Wireless Handheld Ultrasound

Innovation Untethered

The need to do ultrasound exams at the point of care has been established as an essential imaging technique for examining patients in fast-paced environments. As clinical utility expands, the demand for high-quality portable ultrasound devices increases.

The TE Air Wireless Handheld Ultrasound helps to improve clinicians' confidence and efficiency in unprecedented ways by combining premium capabilities with a wireless experience, efficient connectivity, and a robust design for unpredictable environments.

Confident Performance with Every Scan

- Scanning modes: B-mode, M-mode, Color Doppler, Power Doppler, PW, and Tissue Doppler Imaging
- Dedicated presets for Cardiac, Abdomen, Lung, Transcranial Imaging (TCI), Emergency Medicine (EM), Trauma (FAST), EM Abdominal Aortic Aneurysm (AAA), Bladder, OB/GYN, and Vascular

TE Air Connectivity

The TE Air Wireless Handheld Ultrasound and TE Air Mobile App enables providers to overcome the limitations of cords and tight spaces while offering premium scanning functionality.

Extreme Usability

Innovative Air Capsule

- Protective case and a portable charger in one
- Supports wireless recharge of the TE Air up to three times for all-day use

Limit Your Downtime

- The TE Air has a fast charge capability to ensure the device is ready when you are
- Supports over 60 mins of scanning time

Cleaning and Disinfection

- IP68 level waterproof and dustproof design
- Able to withstand complete immersion with compatible disinfectants

Magnetic Charging Cable

- Helps prevent accidental damage and cable fatigue

The TE Air Mobile App

- Intuitive user interface supports one-hand operation and ease-of-use
- On-board patient data management solutions provide connected patient care
- Seamless connectivity with PACS to complement the department's workflow

Clinical Gallery

Powered by eWave and single crystal technology, the TE Air delivers high-quality images with excellent resolution, enabling clinicians to make confident decisions.

Living Technology

Living Technology™ is a continually evolving software-based approach to providing our customers with easily upgradeable enhancements made possible by our core imaging technologies. These upgrades secure product investment protection by ensuring that Mindray Ultrasound Systems remain at the cutting-edge of imaging performance throughout their entire life cycle.

Standard warranty* includes:

One year of coverage for:

- Main system and parts, and technical phone support Monday-Friday, 8 am–8 pm ET (excluding U.S. holidays)
- Standard transducers (normal wear and failure)
- Software performance updates with Living Technology

* Standard one (1) year warranty is available for systems purchased directly from Mindray North America. Warranties for systems purchased from Mindray authorized agents can vary.
