

Consona N9

Diagnostic Ultrasound System

Endless Possibilities

The Consona N9 Ultrasound System redefines excellence in image quality and ergonomics, establishing a new benchmark in the shared service environment. Tailored to address the needs of women’s health, radiology, and cardiovascular departments, it offers a comprehensive array of transducers, advanced features, and a scanning battery, maximizing performance beyond image quality – enhancing user and patient experience.

The Consona N9 System helps improve workflow by minimizing repetitive keystrokes and ensuring consistency between users. It is powered by Mindray’s revolutionary ZONE Sonography® Technology+ (ZST+), the industry’s first virtual beamforming architecture, creating a perfectly focused image with every pixel and frame.

Innovative Ergonomics

At Mindray, we are dedicated to advancing our vision of better healthcare for all. The Consona N9 System embodies this commitment through meaningful ergonomic enhancements. Featuring an intuitive, customizable gesture-powered touchscreen and a fully-adjustable floating control panel, the Consona N9 System enables seamless and efficient workflow, empowering intuitive operation.
