# M8 Elite Ultrasound System

## Premium imaging enabled by a powerful platform

The M8 Elite ultrasound system offers users a fully-featured platform with premium image quality. Advanced system processing and newly designed adaptive algorithms raise the bar to a new level of overall performance. Combined with single crystal transducers and 3T™ technology, this compact mobile ultrasound system delivers robust and reliable performance at the bedside, in the office, or in the interventional suite. Highly focused features make the M8 Elite the ideal technological partner in vascular, women's imaging, and shared service applications. With its slim profile and ergonomic design, the M8 Elite is a powerful, versatile, and mobile addition to ultrasound imaging.

## Key Features

- Single Crystal Transducer for better penetration
- Advanced imaging with Echo Boost™
- 3D/4D imaging and iPage function
- Contrast imaging

*The M8 Elite ultrasound system combines premium performance and versatility in a compact, mobile design.*

15.6" high resolution  
LED monitor

Durable magnesium alloy case  
with spill resistant keyboard

Wi-Fi enabled

Built-in battery provides 90 min  
scanning time (over 3 hours with cart)

3 active  
transducer ports

Onboard storage

32-42"  
adjustable height

Compact system  
weighs only  
12.8 lb (6 kg)

# Industry's Best Investment Protection and Cost of Ownership

## Living Technology

Living Technology is a constantly evolving software-based approach to providing our customers with easily upgradeable enhancements made possible by both of our core imaging technologies: ZONE Sonography and mQuadro. These upgrades secure product investment protection by ensuring that Mindray ultrasound systems remain at the cutting-edge of imaging performance excellence throughout their entire life cycle.

Renal perfusion

Carotid artery

Gallbladder stones

Mitral regurgitation

Mitral valve

Jugular vein thrombosis
